New Congressional standards for evaluating water resource projects - were established which allowed cost/benefit analysis to take into account recreation and land value enhancement as benefits. Allowed TVA to come up with a better benefit/cost ratio (1.5:1): to 60% of value was new recreation and land enhancement.				
1963	With assistance of TVA a local group was formed in order to defuse controversy over the Tellico Project. The Little Tennessee River Valley Development Association (LTRVDA) stated purpose was to provide impartial inventory for the area's assets in order to determine best means of development (lasted only until 1964 - too much public opposition).

July 20-22, 28, 1977.						Committee on Environment and Public Works Serial No. 95-H33. Hearings before the Subcom on Resource Protection on implementation of the Endangered Species Act of 1973 (ESA), which authorizes a national program for conservation of endangered or threatened species of fish, wildlife, and plants, and directs the Interior and Commerce Depts to identify endangered species and issue appropriate regulations for their protection.   Focuses on ESA Section 7 provisions requiring protection of critical habitat, and prohibiting damage to critical habitat by federally assisted projects. At time of hearing, the federally assisted TVA Tellico Dam Project completion on the Little Tennessee River, Tenn. had been interdicted by Interior Dept, as dam closure threatened critical habitat of the snail darter fish. Feb. 15, May 24, 25, June 1, 15, 16, 1978.						Committee on Merchant Marine and Fisheries Serial No. 95-39. Hearings before the Subcom on Fisheries and Wildlife Conservation and the Environment on implementation of the Endangered Species Act of 1973 (ESA), authorizing a national program for conservation of endangered or threatened species of fish, wildlife, and plants. Directs Interior and Commerce Depts to identify endangered species, and, under section 7, to issue appropriate regulations to preserve their critical habitats, notwithstanding conflicting Federal program authorities.   Focuses on section 7 impact to halt federally assisted projects, with testimony on interdiction of the TVA Tellico Dam Project on the Little Tennessee River, Tenn., because of project's threat to the critical habitat of the snail darter fish.   Background of Tellico Dam Project conflict (maps, p. 285-287), suggesting TVA inflexibility in case negotiations; possible alternatives to Tellico Dam completion; ability under ESA Section 7 to resolve all conflicts through good faith consultations. (p. 283-310).   Summaries of reports on potential modifications and/or alternatives to Tellico Dam Project completion; drawbacks of dam completion (Hanson). (78-H561-29)

House of Representatives  
The House of Representatives is the lower chamber of the United States Congress. It is composed of members from each state and the District of Columbia. The House is currently composed of 435 members, with each state having a certain number of representatives based on population. The House is led by the Speaker of the House, who is elected by the members of the House. The House has the power to initiate and pass legislation, to impeach and remove federal judges and other officials, and to elect the President and Vice President.

H.R. 10000 - Reauthorization of the Department of Energy and Environmental Protection  
Energy and Environment

**category**  
Congressional Action

5/18/78

The National Highway Traffic Safety Administration (NHTSA) has issued a recall for certain 1978-1979 Ford Bronco models. The recall covers approximately 100,000 vehicles. The recall is due to a defect in the front suspension system that could cause the vehicle to pull to one side and affect handling.
